**Banjaluka, June 24-26th, 2009.**

## CONFERENCE TRACK

Pollution of both living and working environments is getting bigger and bigger problem nowadays, and all because of not planned industry development, infrastructure development and a great concentration of people and their activities.

Contribution of scientific-expert conference „**Safety and health at work and environmental protection**“ is to spread knowledge regarding possibilities of application the new monitoring technologies in living and working environments, in order to affirm modern technologies of monitoring in living and working environments and possibilities of their application in the Republic of Srpska.

Through analysis of the present domestic and world experience, Scientific-expert conference will suggest the need and possibilities of application the new methods of monitoring of living and working environments and abandoning the old ones. Introducing modern technologies of monitoring should initiate faster changes regarding usage of new technologies, with the final aim to improve monitoring of working and living environments, in order to protect human health.

## CONFERENCE OBJECTIVE

Organizer is motivated by the fact that pollution of working and living environments is a really big problem nowadays. Because of that, scientists and experts who can contribute to solving different problems, through presentation and exchange of experience, opinions and ideas, are invited.

The main objective of the scientific-expert conference „**Safety and health at work and environmental protection**“ is to affirm protection and health at work and environmental protection, and the importance of application of modern technologies in working and living environments, and their application in the Republic of Srpska..

Planned topics and participants in the fields of protection and health at work and environmental protection will offer necessary domestic and world experience regarding application of the new methods of monitoring of working environment, water, air, soil, noise, radiation, waste, biodiversity, and other ecological risks present.

## THEMATIC FIELDS

- **SAFETY AND HEALTH AT WORK**
  - Importance of prevention in safety and health at work
  - Workplace and working environment, control and methods of assessment
  - Tools and equipment for work and personal protection at work
  - Dangerous matters in working environment
  - Workplace and working environment with increased risk
  - Risk assessment at workplace and working environment
  - Importance of science, technology and innovations in workers' protection
  - Importance and role of occupational medicine in protection and health at work
  - Health protection and workers' working abilities

- Safety and health at work and law regulations
- Training workers for independent and safe work
- **ENVIRONMENTAL PROTECTION**
  - Protection of water resources and monitoring methods
  - Methods of solving city waste issues
  - Methods of monitoring and preservation of biodiversity
  - Air protection and monitoring methods
  - Soil protection and monitoring methods
  - Noise pollution, methods of measuring and modelling
  - Radiation in the environment, monitoring methods
  - Environmental protection and human health
  - Modern ecological problems and sustainable development
  - Ecoremediation, importance in environmental protection
  - Economic and legal aspects of environmental protection

### INVITATION FOR WRITING PAPERS

We invite all scientific and expert workers to actively participate in this conference, with their announcements and present experiences and research, and thus contribute to successful sharing of knowledge and experiences in the field of safety and health at work and environmental protection.

All participants have an opportunity to present their papers orally or as a poster presentation, while the final classification will be done by the Scientific-expert conference Committee.

### INSTRUCTIONS FOR WRITING PAPERS

Papers must not exceed 6-10 pages, A4 format, with the following margins:

- *Top – 5,5 cm, Bottom 5,5 cm*
- *Left – 4,2 cm, Right – 4,2 cm*
- *Gutter – 0 cm*
- *Header – 4,5 cm, Footer – 4,5 cm*

They should be written in *MS Word* format, using *Times New Roman*, with line spacing *Single*.

Papers should contain: title, list of author(s) and institution(s), abstract (up to 250 words), key words, chapters, conclusion and bibliography.

Papers should be prepared as it follows:

- Title in English (up to two lines, center, font 13, **bold**)
- Author's and coauthor's full name, name of their institution (*center, italic, font*

size 8) in English.

- Abstract, key words and text itself should be written in font size 10, justified (*font size 10, justified*).
- First line of every paragraph should be 1, 27 cm indented (*Indentation First line*).
- Bibliography should be listed numbered as quoted in the text (surname, initial letter of the name, paper title, journal, publisher, place of publishing, year (*font size 10*) or alphabetically, and in paper parenthetically, quote author's surname and year of publishing (e.g. Petrović, 2007).
- Tables should be created in *Word*, and graphics in *Excel*.
- Pictures should be prepared as scanned (*tif, jpg, gif or bmp format*) or in *Corel*.
- Above tables and graphics, and below pictures, should be titles (*center, italic, font size 10*)
- Papers not prepared as suggested in these instructions will not be published.
- An example for paper preparation is attached.

## REGISTRATION

All participants are asked to submit preliminary registration form via e-mail, fax or by post (our address is Vidovdanska 43, 78000 Banja Luka).
